Oshawa, ON | +1 (289) 943-2452 | frezamajithia@gmail.com | LinkedIn Profile | GitHub | Portfolio

Education

Ontario Tech University

Sept. 2021 - Apr. 2026

Bachelor of Science (Honours), Computer Science

Oshawa, ON

- Selected Coursework: Software Quality Assurance, Operating Systems, Computer Networks, Data Mining, Scientific Data Analysis

Technical Skills

Languages: Python, Java, JavaScript, SQL, C/C++, HTML/CSS

Software Development: React, Next.js, Flutter, FastAPI, REST APIs, Docker, Git, GitHub Actions

Quality Engineering: Software Quality Assurance, Unit Testing, Functional Testing, Debugging, Postman

Product & UX: Figma, Wireframing, Prototyping, User Research, Requirements Gathering, Usability Testing

IT & Security: Linux, Networking Fundamentals, ServiceNow, JWT Authentication, Google OAuth

Data & Productivity: PostgreSQL, MySQL, MongoDB, SQLite, Excel, Word, PowerPoint, Google Sheets, LLM Concepts, Big Data Fundamentals

Professional Experience

Extern @ Webacy

May 2024 – Jun. 2024

Blockchain & Web3 Security Extern

Remote

- Investigated emerging Web3 attack vectors and analyzed decentralized application security to identify vulnerabilities and recommend defensive strategies.
- Researched blockchain cybersecurity trends and documented threat detection protocols, attack patterns, and mitigation approaches.
- Produced technical reports, process flowcharts, presentations, and documentation supporting blockchain security initiatives and training deliverables.

Freelance Web Developer

Jan. 2022 – Mar. 2022

Web Developer

Dubai, UAE

- Designed and developed a responsive business website using React, JavaScript, HTML, SCSS, Java, and MySQL.
- Implemented dynamic contact-form functionality, optimized cross-browser compatibility, and improved website performance, contributing to a 9% increase in weekly traffic.

Featured Projects

PantryPal | Figma, UX Research

2025

- Collaborated with a multidisciplinary team to design a pantry management application based on stakeholder interviews, user research, and usability testing.
- Developed user personas, system requirements, wireframes, and interactive Figma prototypes to improve user workflows and overall experience.
- Iterated on product designs using feedback from usability testing and collaborative design reviews.
- Conducted stakeholder interviews and translated user feedback into functional requirements and interface improvements.

TaskLeaf | Figma, Next.js, FastAPI, PostgreSQL, Docker

2025

- Collaborated with a teammate to develop a full-stack calendar and task management platform focused on improving personal productivity through responsive dashboards, task categorization, analytics, and calendar integration.
- Implemented JWT authentication, Google OAuth, Google Calendar synchronization, weather integration, automated testing, and CI/CD using GitHub Actions with deployment on Railway and Vercel.

SimpleBank Banking System | *Python, SQA*

- Collaborated on the development and quality assurance of a Python-based banking system implementing authentication, account management, deposits, withdrawals, transfers, and transaction processing.
- Designed and executed unit and functional tests covering business rules, invalid inputs, edge cases, and user permission scenarios using Python's unittest framework and unittest.mock.
- Validated expected outputs, documented testing outcomes, identified defects, and verified system behavior through structured test execution and defect analysis.

Biteful | *Figma, Flutter, Dart, SQLite, REST APIs*

2025

- Designed and developed a cross-platform food delivery application featuring restaurant browsing, shopping cart, checkout, order tracking, and profile management.
- Integrated Provider state management, GoRouter navigation, SQLite local storage, REST APIs, and local notifications.

Professional Interests

Passionate about designing intuitive products, building reliable software, solving user-centered problems, and collaborating across engineering, design, and business teams to create thoughtful technology.
